## PROFESSIONAL SUMMARY

A marketing professional who came up through technical writing and moved deliberately into the field, reaching Head of Marketing in a short span. At PineGen AI, I'm building the marketing function from the ground up (brand, demand generation, content, and analytics) for a deep-tech B2B and B2C product. Across 7+ years at WSO2, Creately, and IFS, I've turned complex technical products into clear positioning and measurable organic growth, owning both strategy and hands-on execution. MBA-qualified, and every result here is backed by a public, verifiable portfolio.

## KEY ACHIEVEMENTS

- Building PineGen AI's marketing function from zero to hiring a team of 5 while scaling the brand, demand generation, and analytics for a deep-tech trading product across B2B and B2C.
- Delivered 100K+ organic visits and 50+ monthly qualified inquiries for agency clients, with zero paid spend.
- Published 10+ long-form SEO articles for Creately's repositioning, driving 50K+ monthly organic visits on a platform used by 10M+ people.
- Built an AI documentation agent at IFS (Microsoft 365 Copilot), now in production, cutting handling time 75% and turnaround 50%.

## SKILLS

- **Marketing & Leadership:** Marketing strategy, team building & management, demand generation & ABM, campaign planning & execution, paid social (Google Ads, Meta Ads Manager, LinkedIn Campaign Manager)
- **Content & SEO:** Content strategy, SEO/GEO/AEO, technical SEO (schema, robots.txt, llms.txt, etc), keyword research (Ubersuggest, Ahrefs, SEMrush), conversion copywriting, A/B testing & CRO, CMS management
- **Analytics & Measurement:** GA4, Google Search Console, Google Tag Manager, Looker Studio; dashboards, attribution & ROI reporting; rapid test-and-learn experimentation
- **Email & CRM:** SendGrid, Mailchimp, HubSpot; email nurture sequences, segmentation, and lifecycle campaigns
- **AI, Design & Tools:** AI-assisted marketing workflows (Claude, Copilot, ChatGPT); Canva, Figma, CapCut; Confluence; HTML/CSS/JS
- **Collaboration:** Cross-functional partnership with Product, Sales, Design, and Development; agency & vendor management; independent project ownership

## PROFESSIONAL EXPERIENCE

### Head of Marketing - PineGen AI (Ranga Technologies)

*Jul 2026 - Present*

*A deep-tech AI product that generates TradingView Pine Script strategies and indicators for algorithmic traders and developers.*

- Building the marketing function from the ground up: hired and lead a team of 4, own end-to-end strategy across brand, demand generation, and growth, and drive qualified pipeline and signups across B2B and B2C.
- Design and lead a rounded, multi-channel go-to-market strategy that brings together digital, content, communications, partnerships and offline/industry channels.
- Identify and drive relevant partnerships, sponsorships, industry events and conferences as part of a rounded market presence.

- Plan, execute and optimize SEO strategy to build organic visibility and long-term discoverability.
- Act as a strategic, agile and innovative thinker, adapting quickly as the product, market and channels evolve.
- Launched inbound and outbound demand generation: ABM, LinkedIn thought leadership, SendGrid nurture sequences, and social, Reddit, and affiliate channels to build an engaged trading community.
- Set up AI-assisted workflows (Claude, ChatGPT) and Looker Studio dashboards on GA4 and Search Console from day one, tracking pipeline, conversion, and ROI while shipping against tight deadlines.

**Freelance Marketing & Content Consultant - Independent** *Feb 2024 - Present*

*Concurrent engagements across web design, travel, domain registry, and branding. Full portfolio at* ssparamee.github.io/parameesamarathunga*. Some of the significant projects are:*

**Neo Tourism - Travel & Hospitality** *Jun 2026 - Present*

- Own the content calendar across Facebook and Instagram, and run paid campaigns on Google, Meta, and LinkedIn against organic benchmarks.
- Produce short-form video in CapCut, Canva, and Kling, and run Mailchimp email campaigns, keeping brand voice consistent across channels.

**LK Domains Registry - Sri Lankan Domain Registry** *May 2026 - Present*

- Rewrote the .lk registration guide to open with the question applicants actually get stuck on: which registrant category applies to them.
- Structured content around real search queries to win featured snippets, and applied AEO formatting so AI tools quote the page accurately.
- Measured success by task completion, tracking whether readers finished registering; now live on domains.lk.

**Project Pickle NY - Brand & Web Design** *Jun 2026*

- Designed and built a coming-soon brand site for a New York pickleball apparel brand, establishing its online presence ahead of launch.
- Created the full brand identity (typography, palette, and tone of voice) from scratch, then built and shipped the site in vanilla HTML/CSS/JS on Cloudflare Pages; now live at projectpickleny.com.

---

**Senior User Education Specialist - IFS** *Apr 2024 - Jan 2026*

*Colombo, Sri Lanka - A global enterprise ERP provider serving 10,000+ customers worldwide.*

- Owned IFS Cloud documentation end to end, aligning architecture and process models across technical docs, UI content, and customer- and partner-facing training.
- Designed and shipped the SU-Doc Request Assistant, a Microsoft 365 Copilot agent now in production, cutting handling time 75% and turnaround 50%.
- Ran quality review and gap analysis, and authored two contributor guides (188+ views) that became the onboarding standard for new hires.

---

**Enliven Designers - Web Design & Branding Agency (UK/AU/US/EU clients)** *Feb 2024 - Present*

- Develop SEO, GEO, and AEO content strategies for clients across industries, grounding every brief in audits, keyword research, and competitor analysis.
- Wrote and structured the 50+ page Headlands Nursing Home site to Care Inspectorate Wales standards, and led Dipuravana's travel content through a 10-month editorial cycle.
- Delivered 100K+ organic visits and 50+ monthly qualified inquiries across client sites, with no paid spend.

---

**Technical Writer - Creately** *Jul 2021 - Dec 2023*

*Melbourne, Australia - A SaaS platform for visual collaboration used by 10M+ people worldwide.*

- Authored 10+ long-form SEO/GEO articles (1,000-3,500 words) for a repositioning campaign, driving 50K+ monthly organic visits with 6 - 11-minute average read times.
- Owned release communications each cycle, turning engineering changelogs into release notes, product-page content, and visuals in Canva and Figma.
- Produced blog, social, and ad content, and built the competitor-research editorial framework the content team still uses today.

---

**Technical Writer / Associate Technical Writer - WSO2** *Jan 2019 - Jun 2021*

*Colombo, Sri Lanka - An enterprise API and identity management software company.*

- Documented complex regulatory standards (UK Open Banking, Berlin Group NextGenPSD2, and the Australian CDR) across API, identity, and consent management, with 100+ merged pull requests to a public GitHub repo.
- Built WSO2's first self-paced Open Banking course (LMS and Thinkific) and authored release notes, tutorials, and partnerverified docs across 5+ major releases.
- Partnered with Development, Product, and Customer Success to keep docs aligned with the product, and guided Marketing and Sales content through each release.
- Onboarded and mentored a new technical writer, and restructured existing documentation to improve readability and onboarding.
